**MMM DESIGN GROUP AWARDED CONTRACT
TO DESIGN NEW PORTSMOUTH TERMINAL BUILDINGS**

NORFOLK, Va.—MMM Design Group is proud to announce it has been selected to design all of the buildings and canopies for the new marine terminal in Portsmouth, Va.

The \$350 million terminal, which will take four years to complete, will be located along the Elizabeth River and cover 300 acres of land. The deepwater container facility is expected to move over 500,000 container units per year and serve as the first and largest privately-built terminal in the United States.

MMM, who was chosen based upon its extensive industrial design experience, will design a six-story administrative building, a maintenance facility, and several canopies within the terminal.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, planners, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
