**MMM DESIGN GROUP PROMOTES PHILIP QUILLIN
TO CHIEF STRUCTURAL ENGINEER**

Norfolk, Va—Philip D. Quillin, II, PE has been promoted to chief structural engineer of MMM Design Group.

In his new position, Quillin will be responsible for the overall management of the structural engineering division of the firm, in addition to managing key projects and initiatives within the division.

He has over 13 years of experience in structural engineering design, project management, and the inspection of bridges, buildings, waterfront structures, roadways, drainage systems and miscellaneous structures. Quillin, who graduated from Clemson University with a bachelor's degree in civil engineering, holds a professional engineer's license in Virginia.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, landscape architects, planners, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
