BOWMAN LEED™ ACCREDITED

Norfolk, Va.— MMM Design Group is pleased to announce that Philip J. Bowman, PE, has become a LEED™ (Leadership in Energy and Environmental Design) Accredited Professional.

Bowman, an Old Dominion University engineering technology graduate, joined MMM in 2001. He has more than eight years of experience in the design of mechanical building systems. Bowman is also involved with cost estimates, plumbing field surveys, specifications and client interaction.

LEED™ Accredited Professionals are specialists in sustainable design and construction, green engineering, and building projects. Green buildings enhance the economic bottom line through increased marketability, the environmental bottom line through a reduced environmental impact and the people impacts of building green, which can be seen in reduced absenteeism.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, landscape architects, planners, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
