MMM DESIGN GROUP ANNOUNCES STAFF ADDITIONS

NORFOLK, Va.— Carl W. Rogers, Jr., AIA, NCARB (National Council of Architectural Registration Boards Certificate) and Eugene D. Thayer, PE have joined MMM Design Group as a senior architect and project manager, and senior civil engineer, respectively.

Rogers, a graduate of Tulane University, brings over 25 years of architectural design experience, including the design-build, project management, and construction administration of government, commercial, and higher education buildings.

His most recent work experience includes serving as a project manager and architectural designer for McEntire Design in Suffolk. Rogers also worked for several Virginia firms, including Thompson & Litton Engineers & Architects in Wise and Coleman-Adams Design-Build in Forest.

Thayer, a graduate of Virginia Polytechnic Institute and State University, joined the firm this June. He brings over 30 years of civil engineering design experience, including site planning, storm drainage design, utility design, and pump station design.

His most recent work experience includes serving as a project manager and senior civil engineer for Wiley and Wilson in Virginia Beach. Thayer also worked for several Virginia firms, including Baldwin and Gregg, Ltd., a civil engineering, surveying, and planning firm in Norfolk.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, landscape architects, planners, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
