**BOWMAN, CRAIG, ELLIS RECEIVE PROFESSIONAL ENGINEERS LICENSE
HERMANSKY CERTIFIED INTERIOR DESIGNER
CRAIG LEED™ ACCREDITED**

Norfolk, Va.—MMM Design Group congratulates Philip J. Bowman, PE, Joseph L. Craig, PE, LEED™ AP, and W. Brad Ellis, PE, on passing the Commonwealth of Virginia Department of Professional and Occupational Regulation Professional Engineers examination. Karen M. Hermansky, CID, has passed the National Council for Interior Design Qualification examination. This honor has earned Bowman, Craig and Ellis the Professional Engineer accreditation and Hermansky the Certified Interior Designer designation from the Virginia Board of Architects, Professional Engineers, Land Surveyors, Certified Interior Designers, and Landscape Architects.

Bowman, an Old Dominion University engineering technology graduate, joined MMM in 2001. He has more than seven years of experience in the design of mechanical building systems. Bowman is also involved with cost estimates, plumbing field surveys, specifications and client interaction.

Craig is skilled in electrical and power systems designs for government, hospitals, commercial/retail, public schools, and places of worship. He is an Old Dominion University electrical engineering graduate who joined MMM in 2006. Craig has also become a LEED™ (Leadership in Energy and Environmental Design) Accredited Professional.

Ellis, a graduate of Virginia Polytechnic Institute and State University, joined MMM in 2000. He has more than five years of experience in the areas of utility layout and drainage design. His professional experience also includes a heavy concentration in roadway and pavement design.

Hermansky has more than eight years of interior design experience in government, corporate, university and showroom design. She is an interior design graduate of Virginia Polytechnic Institute and State University.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, landscape architects, planners, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
