NEW LEED CERTIFICATIONS AT MMM DESIGN GROUP

NORFOLK, Va.— MMM Design Group is pleased to announce that Karen M. Califano, CID, and Karen M. Hermansky, CID, have become LEED™ (Leadership in Energy and Environmental Design) Accredited Professionals.

Califano, MMM's Senior Interior Designer, has 12 years experience in programming, inventory of existing conditions, renovation of existing interiors and design of new interior spaces.

Hermansky, also an Interior Designer, is a Virginia Polytechnic Institute and State University graduate, and rejoined the firm in 2007 after working for MMM previously for three years.

LEED™ Accredited Professionals are specialists in sustainable design and construction, green engineering, and building projects. Green Buildings cost less to operate and maintain; are energy- and water-efficient; have higher lease-up rates than conventional buildings in their markets; are healthier and safer for occupants; and are a physical demonstration of the values of the organizations that own and occupy them.

MMM Design Group is a full-service architecture, engineering and planning firm headquartered in Norfolk. The firm's multi-disciplined team of professional architects, interior designers, planners, landscape architects, civil, structural, electrical and mechanical engineers has experience with projects in the fields of higher education, defense, homeland security, criminal justice, transportation, recreation, environmental protection, and historic restoration.
