BALDWIN & GREGG CELEBRATES 100TH ANNIVERSARY

NORFOLK, Va— Baldwin & Gregg, Ltd. (B&G) is a full-service surveying firm based in Norfolk, Virginia. With 100 years of continuous service, Baldwin & Gregg is the second oldest land surveying firm in Virginia. B&G has an outstanding portfolio of project experience and professional survey credentials. The firm has earned a reputation as one of the leading surveying firms in the Commonwealth. They have done so by providing excellent service, innovative solutions, and an energetic roster of professionals who use the latest surveying technologies.

Baldwin & Gregg has the capability and experience to complete any surveying and engineering task. GPS equipment and electronic total stations and data collectors are used to produce both hydrographic and topographic maps of a project site. Field crews have extensive experience in setting aerial targets and/or using photo identity points.

Baldwin & Gregg has performed more than 50 annual services-type surveying contracts within the past 10 years. Staff are highly flexible and capable of fast turnaround performance to support project schedules and unplanned delivery dates.

Surveying services include: topographic surveys, property acquisition plats, acquisition maps, cross sections, construction stakeout, hydrographic surveys, riparian rights surveys, hazardous waste surveys, GIS mapping, volumetric surveys, aerial mapping, boundary surveys, GPS, physical surveys, monumentation, and easement plats.

Baldwin & Gregg has been headquartered in downtown Norfolk since its inception, and has specialized in providing a full range of survey services for clients since 1908. Baldwin & Gregg also operates as Eastern Shore Surveyors, to better serve the Eastern Shore of Virginia.
